STRONGER THAN THE LAW

The best known and largest selling work shoe in the world. You can't rip or tear this shoe. You can hardly wear it out. Many laws have been broken, but you can't break this shoe that is why we call it "Stronger Than the Law." It is the strongest and longest wearing shoe ever made. It has many imitators but its equal has never been made.

"Star Brand Shoes" are better.

A CHAPTER OF SHAME, A BLOT ON CIVILIZATION

Because twelve negro convicts on the Harlem farm in Fort Bend County failed to pick as much cotton as was demanded, they were charged with laziness and insubordination and were confined in a room 8 by 10 feet where they were left to breath poisoned air and eight of them died.

It is a horrible disgrace to the state. A black crime against law and decency, a shame on human civilization. It is worse than the barbarities in Mexico and surpasses the brutal practices of barbacon trikes. The officers and guards responsible for the heinous crime ought to be severely punished for deliberate murder.

A charge of negligent homicide is entirely too mild a term to use. Criminal carelessness is not strong enough. It was the work of human brutes, committed because the victims failed to produce as much value to the employers as they wanted. It was taking human life to compensate for loss of hire and the men in charge ought to be given the extreme punishment.

Remember the date, Sept. 20th. Matinee at Dreamland every Saturday afternoon 2:30 until 5:30 p. m. Admission 10¢.

Maude Wood of San Antonio was here Tuesday representing Clark & Conrads.

BEST ONLY FOR FAIR PATRONS

Band Music of the Best to Feature Coliseum Programs.

THAVIU WILL DIRECT

Famous Ballet in "Dances of All Nations—Very Best Acts in World of Vaudeville Secured."

Dallas, Texas—The State Fair of Texas is bending every effort toward making the Coliseum programs at the coming exposition. Saturday, October 18, to Sunday, November 2, of unusual interest. Already a ballet of America's best dancers has been secured. Under the leadership of a premier dancer who comes direct to America from Austria-Hungary, the ballet will be seen by Fairgoers in the dances of all Nations.

Bandmaster Thaviu and his famous organization of musicians and instrumental soloists are well known to patrons of the State Fair and are exceptionally popular with those who love the beat in band music. In a letter to the management, Mr. Thaviu says: "I have already started arranging my programs for the Fair without an equal." As much attention will be given to popular acts as to classical music, and we will have a band that will please each and every visitor. My list of instrumental soloists is not yet completed, but will include the very best in the musical world. Have practically completed arrangements for securing vocal soloists of national reputation, whose singing will be one of the big features of the Fair."

Among the vaudeville acts of merit that will feature the Coliseum bill are: The Three Dutions, an equestrian act; the Teletzuki Japanese Troupe, the Six Castellians, Santini. The Three Dutions consist of three people and two horses in "stunts" that will appeal. The Teletzuki Troupe is billed as the very best Japanese act in America, not only in their ability as performers but in stage settings and costumes. The Castellians contribute the very best acrobatic work on the vaudeville stage and their performances each day will be marked by marvelous feats. Santini is an accordion player and his instrument so constructed that he can play the most intricate of classic music as well as popular and ragtime airs.

SILOS AT FAIR

Management Harvests Twelve Acres of Sorghum for Demonstration Work.

Dallas, Texas—Along with its other major duties the management of the State Fair of Texas at Dallas is actively engaged in farming. Twelve acres in the race track field were planted in sorghum this year and the yield averaged twenty tons to the acre. The crop will be used in silo demonstration work at the twenty-eighth annual exposition, which begins Saturday, October 18 and closes Sunday, November 2. Silo demonstration work will be one of the big educational features at the coming exposition. The silos will be connected with the new livestock barns erected this year at a cost of \$10,000 and these will be used in feeding exhibit cattle, horses, sheep and other stock.

One mammoth silo at Fair Park alone holds 100 tons and there are several others that were used in taking care of the remainder of the crop. Experiments carried on by the Bureau of Animal Husbandry of the state Agricultural & Mechanical College have shown that stalk may be made from either corn, sorghum, Kafir, milo or milo maize and can be used profitably in beef production. Since the best silage was placed in Fair Park hundreds have been erected in various sections of the Southwest.
